agropolis fondation

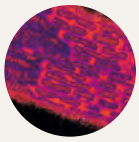
2019

AN INSTRUMENT TO SUPPORT

research, training and innovation towards agro-ecological transition

5 disciplinary areas

Plant biology



Biology of plant biotic interactions

Agro-ecosystems management

Sciences of food and non-food processing

Social sciences and agriculture-society interactions

3 cross-cutting axes

480 scientific projects funded

including 344 completed projects

and 136 ongoing

High quality scientific production

patent 1 registered

88 impact-factor publications

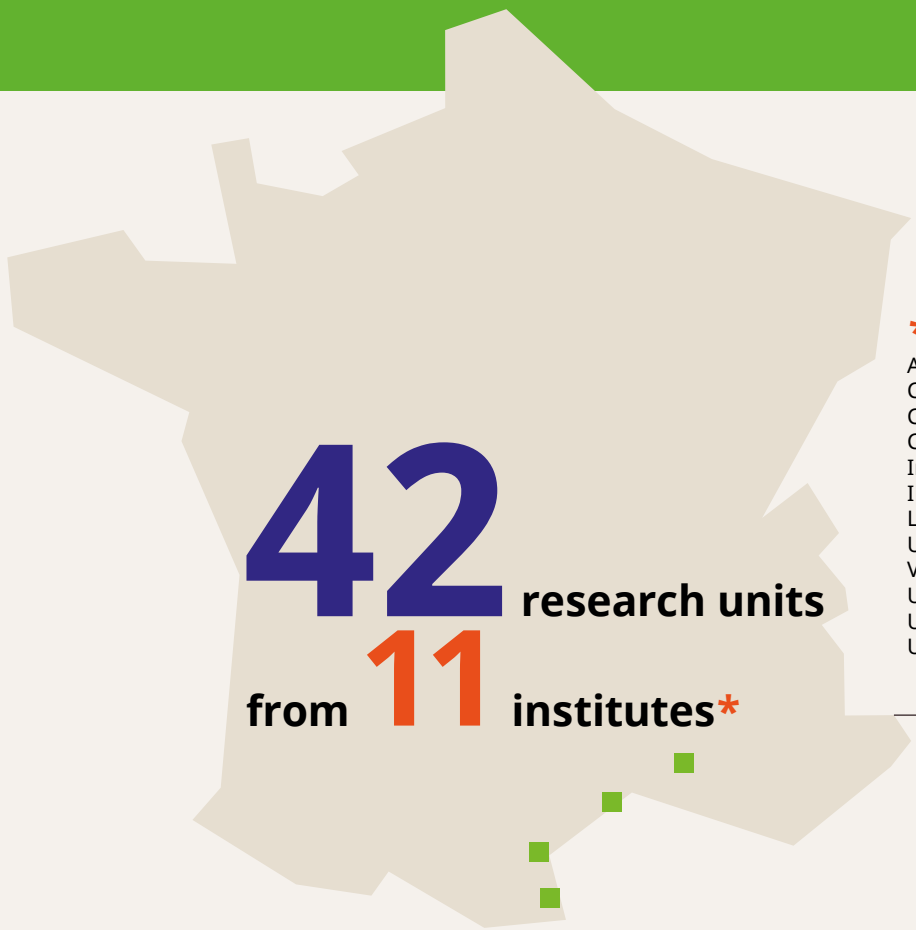
25 theses

15 films or videos

8 websites

An Evolving

MULTI-SITE ECOSYSTEM



42 research units

from **11** institutes*

*

AgroParisTech
Ciheam-Iamm
Cirad
CNRS
Inrae
IRD
L'Institut Agro
Université d'Avignon et des pays de Vaucluse
Université de la Réunion
Université de Montpellier
Université de Perpignan Via Domitia

A network of more than **3,600** agents

including nearly **1,600** statutory staff (researchers and teacher-researchers)

900 support staff

800 doctoral students

320 post-doctoral students, researchers on fixed-term contracts and foreign visitors

A MECHANISM

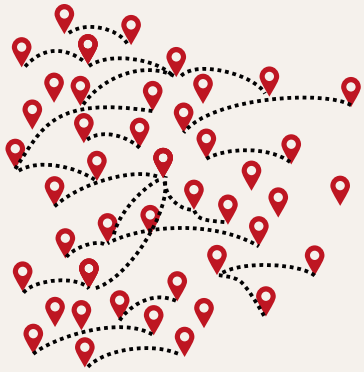
to facilitate dynamics within the AGRO scientific community

Active participation in local, national and global scientific activities

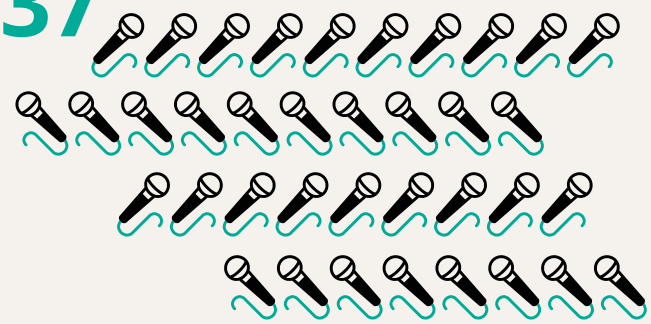
58 participation

21 posters

in **39** international conferences



37 communications



Agropolis Fondation is ISO9001 certified for all its activities, defined as follows:

" Facilitating and structuring the AGRO scientific community. Design and launch of calls for proposals, selection, funding and monitoring of scientific excellence projects and programmes to host international scientists in the field of agronomic research and sustainable development, management of financial resources."

Call for proposals

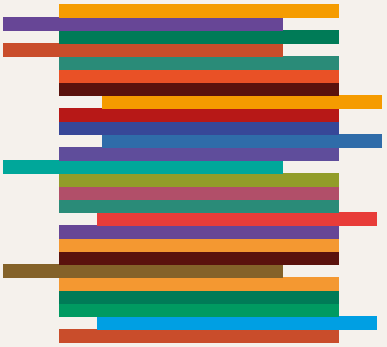
43%

Average success rate

A COLLECTIVE INTELLIGENCE

to address global issues through partnerships

26
new projects selected in 2019



for an amount of **843 k€** including **250 k€ in co-financing,** through several support schemes

2 new flagship projects

CalClim
Plant Adaptation to Calcareous Soil upon Climate Change.

Characterizing the molecular response of plants subjected to the combined effects of calcareous soils and high temperatures.

Global budget: 2,25 M€
Agropolis Fondation: 0,6 M€

June 2020 / December 2023

DSCATT
Dynamics of Soil Carbon Sequestration in Tropical and Temperate Farming Systems.

Developing models combining productivity, economic efficiency and balance in terms of soil carbon sequestration.

Global budget: 3,64 M€
Agropolis Fondation: 1M€

February 2019 / March 2023

Partnerships

About **15** institutional partners

More than **100** project partners

Charter Members

cirad AGRICULTURAL RESEARCH FOR DEVELOPMENT

INRAE science for people, life & earth

IRD Institut de Recherche pour le Développement

l'institut Agro agriculture • alimentation • environnement | SupAgro Montpellier

Université de Montpellier
